

CONSULTING ENGINEERS

DID YOU KNOW?

Cemcorp's history dates back to 1853 and has contributed to Canadian history and the engineering industry as a whole.

It was originally owned back then by an Englishman named Henry Gough Booth who was a coppersmith and brazier and called the company- Booth & Sons.

Professional Engineering Services

About Cemcorp Ltd.

Cemcorp Ltd. was established in 1984 to provide specialized engineering consulting services to the Industrial Process and Manufacturing fields, particularly the food processing, distillery, brewery and chemical industries. Recently the firm's specializations have expanded to cement process, power generation and environmental assessment audits. Today, the firm is a multi-discipline consortium of independent consulting engineers that provides, in addition to process and equipment design, a

wide range of expertise including structural, electrical, controls and instrumentation, environmental and hazard control engineering. We are ISO 9001 certified and have successfully been operating while meeting ISO standards for over 20 years.

Located in Mississauga, Ontario, the office is fully equipped and linked by a Network System with external offices in Toronto, Oakville, Brampton and Concord. CAD stations employ SolidWorks 3D and AutoCAD design software.

Our Experience

Cemcorp Ltd. has completed numerous overview, pre-investment and feasibility studies. As well as, detailed engineering, procurement tendering, construction management and project management services for its clients throughout Canada, the US and other countries across the globe. We are capable of helping our clients with a variety of services for their specific project. Our past clients have included some recognizable companies like Redpath Sugar, Molson, Gay Lea Foods, GEA, Daikin Applied, and many more.
